PG DEPARTMENT OF CHEMISTRY

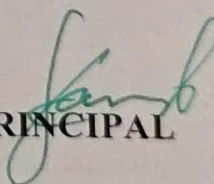

ACADEMIC YEAR (2023-2024)

FIELD VISIT

01.10.2023

CIRCULAR

The Field Visit for Chemistry UG Second year students will be held on 04.10.2023 at 10.00 am to 1.30 pm in Viswa Maruthi Tubes and Tyres, Dharmapuri. The concerned staff members and students of the Department of Chemistry are requested to attend the field visit.

REPORT ON CO-CURRICULAR ASSEMBLY

ACADEMIC YEAR- 2023-2024

DEPARTMENT NAME	Chemistry
DATE AND TIME	04.10.2023 & 10.00 AM to 1.30 PM
VENUE / PLATFORM	Viswa Maruthi Tubes and Tyres
NAME OF THE EVENT(FIELD VISIT/CCA)	Field Visit
CLASS	II-B.Sc., Chemistry A & B
CLASS IN CHARGE	Mrs.C.Maheswari and Mr.M.Basuvraj
CHIEF GUEST	Arunkumar Viswanathan, Managing Director, Vishwa Maruthi Tubes and Tyres
NO OF PARTICIPANTS / BENEFICIARIES	71

REPORT:

The II year students actively participated in this field visit. This field visit enhances their critical thinking skills and gives students a chance to think about practical knowledge from different perspective.

PG DEPARTMENT OF CHEMISTRY

FIELD VISIT REPORT

CLASS: II-B.Sc Chemistry

CLASS INCHARGE: Mrs. C. Maheswari and Mr. M. Basuvaraj

DATE : 04/10/2023

PLACE: Athiyaman Bypass Road,

Sogathur Post,

Dharmapuri -636 807.

TIME : 10:00 am-1.30 pm

The Field visit was useful to the students to know the types of tyres. Students know how to melt the latex and preparation of tyres. Also they were given exposure to learn about different types of chemicals and the important usage of Carbon and Plastic in making of the tyres. They also learnt the recycling of tyres and the final process of steaming of tyres for strength. There were 71 students actively participated in this field visit.

ACADEMIC YEAR-2023-2024

DEPARTMENT NAME	PHYSICS
DATE	29/09/2023
VENUE / PLATFORM	All India Radio, Adhiyamankottai, Dharmapuri -636 807.
EVENT	FIELD VISIT
TOPIC	Dharmapuri FM (102.5) MHz FM RADIO STATION
RESOURCE PERSON(S)	P. ChinnaSamy, G.Swetha and Elango
NO OF PARTICIPANTS / BENEFICIARIES	27

BRIEF REPORT :

One of the best ways to give students hands-on experience and improve their life skills and technique skills is through field trips and Department of Physics organized one of those kinds for UG and PG students on 29 September 2023, to the All India Radio FM station in Dharmapuri. They learned how a community radio station differs from commercial FM stations and All India Radio programs by listening to Radio Dharmapuri FM (102.5 MHz FM). All UG and PG students learned how to create programme packaging, which included capturing audio snippets and editing them to fit the needs of the Programme.

Report on FM station Field visit Held

Date of Event	29/09/2023
Name and Type of Event	PALSUVAI NIGALCHI (பல்சுவைநிகழ்ச்சி)
Conducted by	UG & PG students
No. of Participant	27

As part of their course, the Physics Department's UG and PG students visited Dharmapuri FM (102.5 MHz FM) on September 29, 2023, to learn more about their future opportunities for our students and to gain a better understanding of how a community radio station operates.

Dharmapuri FM (102.5 MHz FM) invited UG And PG Physics students to visit the Dharmapuri FM station on September 29, 2023. First The students met Mr. P. ChinnaSamy, the FM radio station's director, RJ Miss G. Swetha and head of music editor Mr. Elango. Miss G. Swetha and Mr. Elango had explained the broadcasting function. Then they took our students to the recording and editing rooms, as well as they explained how commercial radio stations differ from community radio stations and All India Radio in terms of their programming, to the students. The radio host also went into detail about how commercial radio stations mostly do broadcasting on advertising to stay in business; hence the majority of their programming consists of music and commercials followed by information.

Goals for the visit

To educate students about radio programme production, transmission, and distribution across territory; to comprehend studio layout and radio station administration.

Various sections present in the FM station are as follows:

Production facility

Students learnt about the station's production department, including how to record and edit voiceovers, generate revenue, and secure sponsorships.

Technical or electronic section

This department is in charge of all mechanical problems, equipment security, instrumental maintenance, etc.

Recording studio

Agriculture, health, economics, research, and recorded programs are all topics that All India Radio covers, both domestically and internationally.

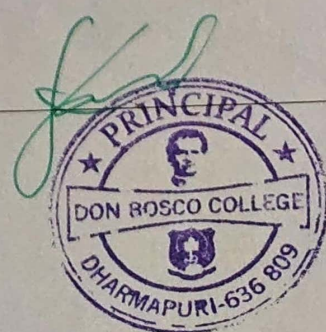

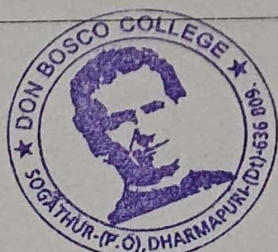

Station library/Archive

The radio station's library features a collection of historical music documentaries, dramas, films, and music CDs and DVDs.

PERMISSION LETTER

From

The Head of Department,
Department of Physics,
Don Bosco College,
Dharmapuri – 636 809.

To

The Principal,
Don Bosco College,
Dharmapuri – 636 809.

Respected Rev. Father,

Sub: Seeking permission for a Field Visit – Reg.

As a part of curriculum, we the Department of Physics organised a Field Visit to the All India Radio – Doordarshan High Power Transmitter Dharmapuri, for our department students on 29.09.2023.

We are looking ahead for your permission to allow us to spend some precious moment in the AIR Dharmapuri 102.5 FM.

We would be immensely grateful to you, if you could accord permission for our field visit for a term of **30 students** and **3 faculty members**.

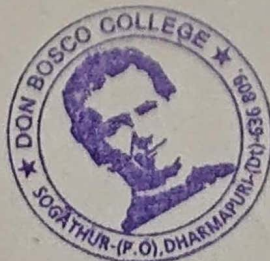

Thanking you,

Yours sincerely,

DEPARTMENT OF PHYSICS

A REPORT ON THE FIELD VISIT TO VAINU BAPPU OBSERVATORY, KAVALUR

The Department of Physics organized one day field visit to Vainu Bappu observatory at Kavalur on 13-10-2023 for the UG and PG Students of Physics.

Location:

The Observatory is situated at Kavalur in Tirupattur district in Tamilnadu State, which is about 120 kms away from our institute.

Details of the journey:

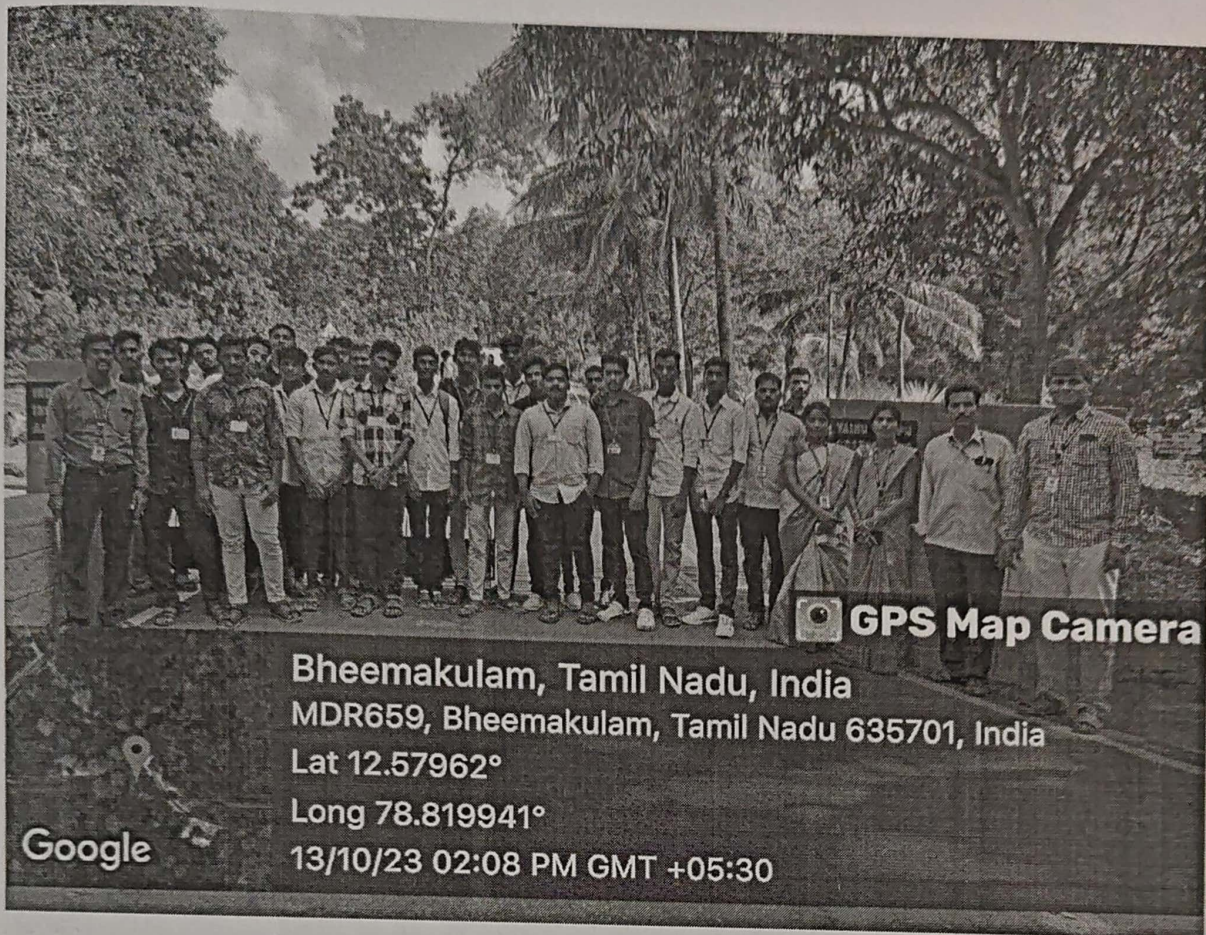

On 13th September 2023, the staff and students started traveling from DBC campus to Observatory at 9:30 AM by bus. We reached the Indian Institute of Astro Physics (IIAP) gate at 2:00 PM. After the registration we entered into the observatory and met Mr. S. Surendharnath and his team who were appointed as our guide. They explained about scope and objective of the observatory and gave a firsthand experience on the handling of astronomical telescope. After getting an input on the astronomical telescope (36 inch) of the Institute we expressed our appreciation to the team.

In the evening around 6:30 pm the students and staff were taken to view the planet SATURN through a 6 inches telescope and left to Dharmapuri.

Participants

30 participants from the Department of Physics embarked on this visit. Mr. S.Ramkumar Head of the Department organized the event, along with the Student Coordinator Mr. R.Kaviyarasan (C21UG155PHY006)

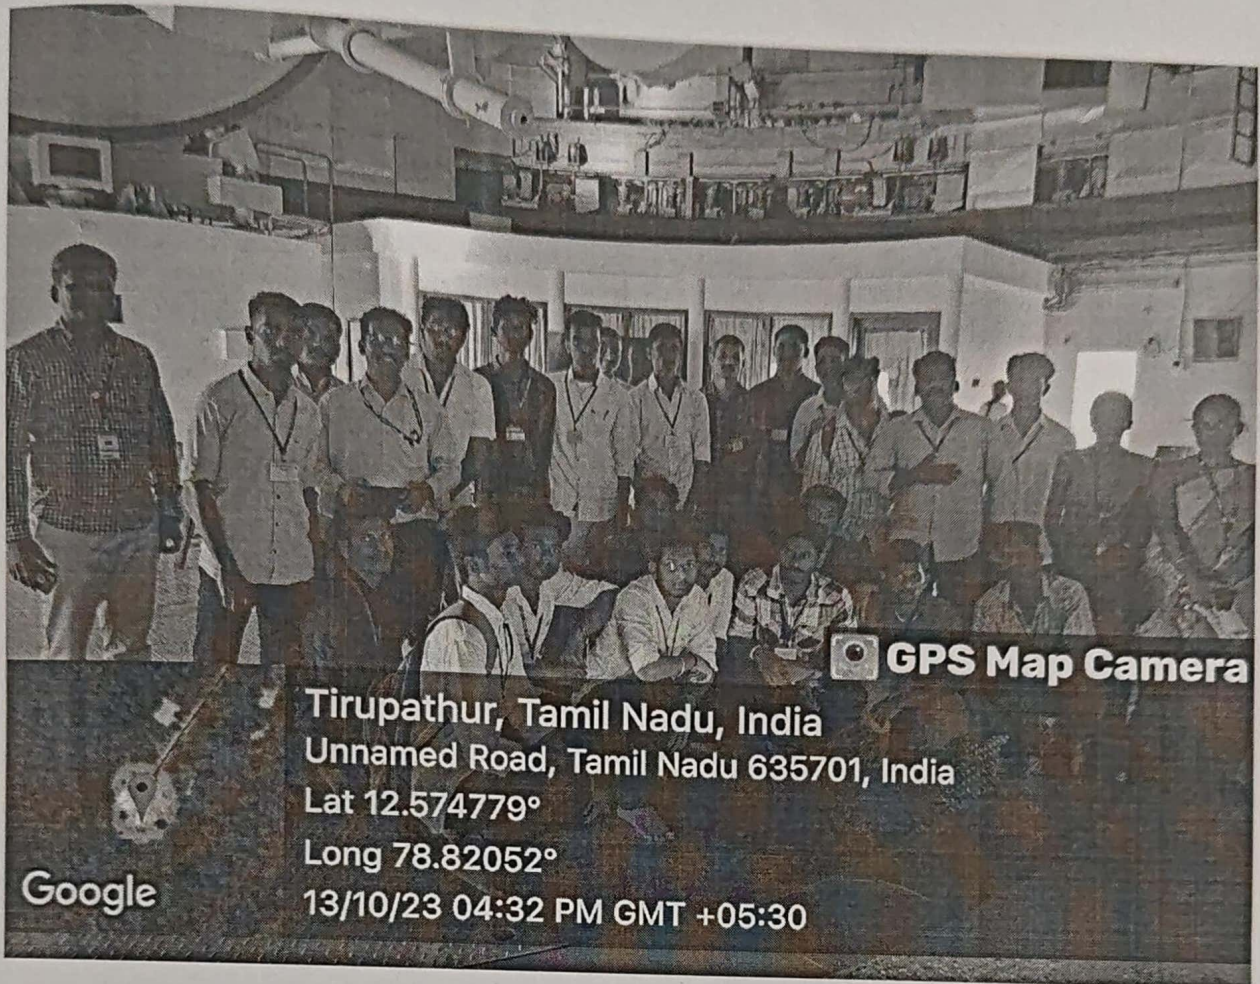

Introduction to Vainu Bappu Observatory

The Vainu Bappu Observatory is an astronomical observatory, owned and operated by the Indian Institute of Astrophysics. It is located at Kavalur in the Javadi hills, in the Indian state of Tamilnadu. The Observatory is at an altitude of 725m above mean sea level (longitude $78^{\circ} 49.6'$ E; latitude $12^{\circ} 34.6'$ N). The Observatory is strategically located, closer to the earth's equator, for covering both northern and southern hemispheres with equal ease.

Jayashree

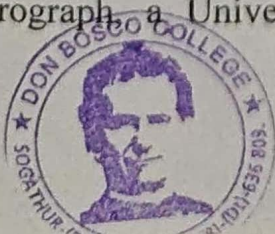

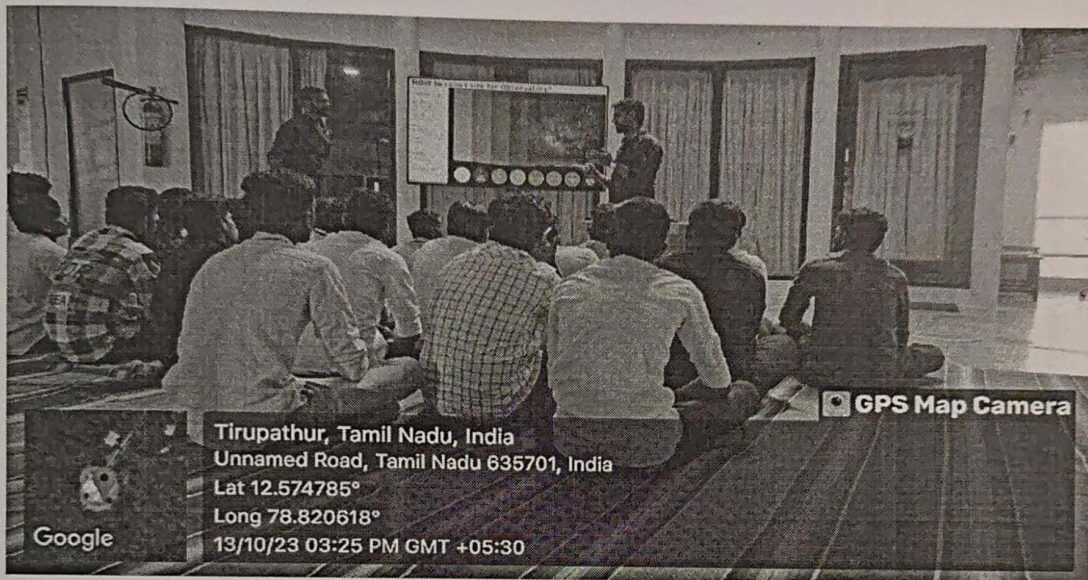

Lecture on Optical Telescope

Research Assistant Mr. Ragul from Indian Institute of Astrophysics briefed about the Optical Telescope. Frontline research is being carried out at Vainu Bappu Observatory, with the help of optical telescopes, using several focal plane instrumentation facilities. The ongoing programmes include observations of stars, star-clusters, novae, supernovae, and blazers, galaxies, optical imaging of gamma rays burst fields, stellar populations, solar system objects and many others. The telescopes at the Observatory had started with relatively modest focal point instruments, and later on graduated to more sophisticated ones.

These include cameras for fast photography, photoelectric photometers, a single-channel photoelectric spectrum scanner, a medium resolution spectrograph, a quartz-prism calibration spectrograph, infrared photometer, image tube spectrograph, a Universal Astronomical Grating Spectrograph, high-resolution

echelle spectrograph and a Polari meter. Photographic plates were the principal detectors, in the early days. Presently, charge-coupled devices (CCD) have replaced photographic plates. Some micro-processor-controlled photon counting systems have been designed and fabricated, which have been used in a variety of observational projects. A fibrelinked echelle spectrograph is under construction.

Highly advanced technical facilities like SUN workstations are available at the telescopes, for handling the CCD data, along with specialized data reduction packages such as IRAF, STSDAS and DAOPHOT. Communication facilities, like e-mail via VSAT satellite connection, are available for all users for the telescopes.

A programmer of ultra-flow dispersion spectroscopy was successfully used to survey stars in the Large Magellanic Cloud (LMC). Out of the ten supernovae observed so far, SN1987A in LMC was observed in great detail using the 1m and the 75 cm telescopes, despite its low elevation in the southern sky, proving the aptness of the geographic location of Kavalur for the Observatory. In fact, the observations of the supernova were started within 48 hours of the discovery.

Handwritten signature in green ink.

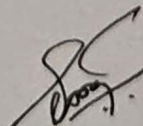

Sky Watch

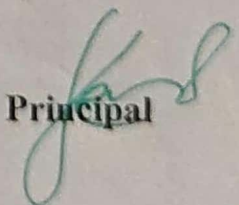

Mr. Ragul and his team demonstrated the working principle of the 36-inch telescope to the students. The sky watch was arranged for the students at 6.30 pm, with a 6-inch telescope. After this, they returned to Don Bosco College.

PERMISSION LETTER

From

The Head,
Department of Physics,
Don Bosco College,
Dharmapuri – 636 809.

To

The Principal,
Don Bosco College,
Dharmapuri – 636 809.

Respected Rev. Father,

Sub: Seeking permission for an Observatory Visit – Reg.

As a part of curriculum, we the Department of Physics would like to organise an Observatory Visit to the Vainu Bappu Observatory, Indian Institute of Astrophysics, Kavalur, Vellore (Dt) for the students of our department.

The officials of the Observatory have given permission to visit the Observatory on 13.10.2023.

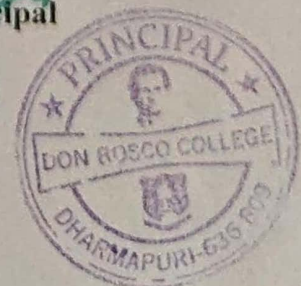

We request you to allow us to spend some precious moment in the Vainu Bappu Observatory, Indian Institute of Astrophysics, Kavalur, Vellore (Dt).

We would be immensely grateful to you, if you could accord permission for our field visit which involves **29 students** and **6 faculty members**.

Thanking you,

Yours sincerely,

Date: 25.09.2023
