INDUSTRIAL VISIT AT MYSORE

Report

ACKNOWLEDGEMENT

We present our respectful thank to our Principal “**Rev. Fr.A.SILUVAIMUTHU**,” and the management of, Don Bosco College of Arts and Science Dharmapuri, for providing We necessary facility in the Department.

We thank our “**Vice Principal and Mentor Rev. Fr.Robert Ramesh Babu**” for his guidance and valuable tips which helps us to complete the Industrial visit successfully.

We thank our **Dr. K. Anand**, Head, Department of Business Administration for his regular support and arranging in this industrial visit.

We express our special thanks to our guide **Mr. G.Suresh MBA.**, Assistant Professor in Business Administration, Don Bosco College of Arts and Science, Dharmapuri, for offering very useful and valuable guidance at every stages of this work for taking keen Interest to the preparation of this Industrial visit successfully.

I express special gratitude to my **Family Member** full support for complete Industrial visit successfully.

Milk Union LTD

Branch: Mymul Nandini

INTRODUCTION:

Our department has arranged for on two day industrial visit (IV) for thread year B.B.A to Nandini milk products Ltd at Mysore. The students were guided by prof. G.surash. students visited the plant by 10.00am. and returned back 12.30pm . this I V was very useful to the students.

OBJECTIVES OF THE STUDY:

1. Companies working structure.
2. Process of production.
3. Types of production.
4. Inflow of raw materials.
5. Out flow of finished products.
6. To study about the quality of milk.
7. To know about the brand loyalty.
8. To identify the customers satisfaction of using this milk.

Managing director : Mr. Sivalinga corda

President : Mr.Magesh

Companies working structure

1. Managing Director
2. Joint managing Director
3. executive Director

4. HR
5. Team leaders

Process of company:

- The company established in the year December 1980
- Today, has expanded to 14 branches in Karnataka.
- The company has 84 product manufactured.

➤ **Employees**

Total : 1400

Temravery : 600

Permanent : 800

Process of production

1. Milk filtering
2. Milk in LAB testing
3. Cooling
4. Milk packaging
5. Packet milk (250 ml, 500ml, 1liter)
6. Milk thumping
7. Batter
8. Milk powder
9. Checking
10. Export

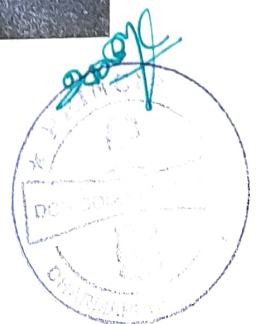

Major products from milk:

1. Milk packet
2. curd
3. Mysore pak
4. Kesar pada
5. butter (80 % fat)
6. milk packet size various (250,500 ml, 1 let)

Conclusion

Thus this two day visit to Nandini milk gave us a wide knowledge about milk products and how they are manufactured. The company demonstrated its methodologies and procedures for our butter understanding. Thanks to NANDINI MILK UNION LTD

SANDALWOOD OIL FACTORY

Details

This is not for everyone but be assured that the visit will be worthwhile, especially for those who love fragrances. The **Government Sandalwood Oil Factory** was established almost a century ago **in 1917** to harvest the oil to be used for a variety of purposes, most importantly the state's signature and iconic sandalwood soap. There are strict restrictions on the felling of sandalwood trees and hence the factory might sometimes be closed, but it is well worth the visit. The setup is largely industrial with **boilers, condensers, vats and store rooms** though the air is heavy with the scent of sandalwood. A guide usually explains and takes visitors through the process of powdering the wood, then the laborious process of boiling, distilling, condensing and extracting the oil. A store on the premises offers a variety of products made with the oil including soaps, incense sticks, cosmetics and perfumes.

Process of production

1. Sandalwood import.
2. Wood stored.
3. Powdering the wood.
4. Boiling.
5. Distilling.
6. Condensing.
7. extracting the oil

BRIEF REPORT :

- ↓ We are started bus at 6.30 a.m in Dharmapuri.
- ↓ We refreshed at 8.30 a.m Siddhar and followed by finished our Breakfast at hotel
- ↓ We reached Perundurai at 10.30 a.m First, we entered Instrumentation block and saw different instruments like power loom , spinning ,die room and fabric sections. There was a separate instrumental operate person for each instruments. All of them were explained how the instruments are working, what are the principle and applications and all. Students were nicely interacted with them and asked more questions, doubts was clarified by them.
- ↓ Then we visited one research lab for their project purpose and they learned how to put reaction, workup procedure and purification techniques.
- ↓ At 2.30 p.m we are finished our lunch at hotel .
- ↓ At 3.30 p.m we went to Mettur dam (water Planitorium).
- ↓ Finally 5.15 p.m we returned towards to our native place.

Around 6.00 p.m we are getting to the bus and we reached 7.00 p.m in Dharmapuri, and students were sent carefully and we leave to our home

PG & RESEARCH DEPARTMENT OF COMPUTER SCIENCE

INDUSTRIAL VISIT REPORT (2018-2019)

An industrial visit was organized by the PG & Research department of computer science for III B.Sc CS, III B.C.A students on 27.07.2018 under the guidance of Rev Fr.Robert Ramesh Babu Vice principal and Prof S.Vadamalai along with Prof. S.Silambarsan , Prof S.M.Srimati.

We started our journey from Dharmapuri bus stand at 8.30 am, with prayer and reached **United Information Solutions**, Salem around 10.30 am.

The students are grouped into three batches. Two sessions of training programme was organized titled **how to Developing Real time projects Using Recent Technologies.**

Mr.K.Gokulakannan gave the demo for developing **real time** projects.

Mr.Ashok, Centre Manager he explained about the Software field. Also he gave the information about the scope of IT field and latest technology for all our students.

The session was completed by 3.00 pm. We started back to Dharmapuri at 04.30 pm and reached around 6.30 pm.

LEARNING OUT COMES:

- We got a new experience while visiting the company.
- We know about the scope for the course we are doing now.
- We have the industrial exposure.
- We know about the basics of PHP project development
- This visit greatly helped the students to learn the current trends.

- We know about the scope for the course we are doing now.
- We have the industrial exposure.
- We know about the basics of PHP project development
- This visit greatly helped the students to learn the current trends.

INDUSTRIAL VISIT

The students of IInd DPM were started learning the printing basis, on behalf of this we have planned and executed a field to **Mani Letter Press** Dharmapuri on 23rd June 2018. With the help of **Mr.Pachiyappan** the program went on very well.

Almost 40 students were benefited by this field visit. The students learned many aspects of letter press. They are as follows:

About the image carrier of letter press

Structure of the printing press

Platen preparation

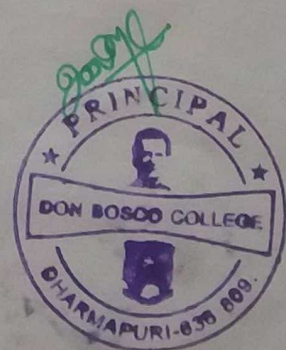

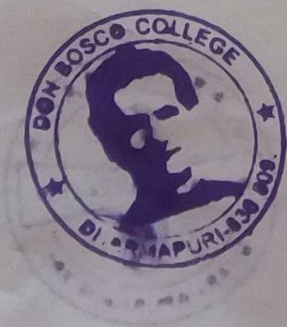

Skills required for the letter press image carrier preparation

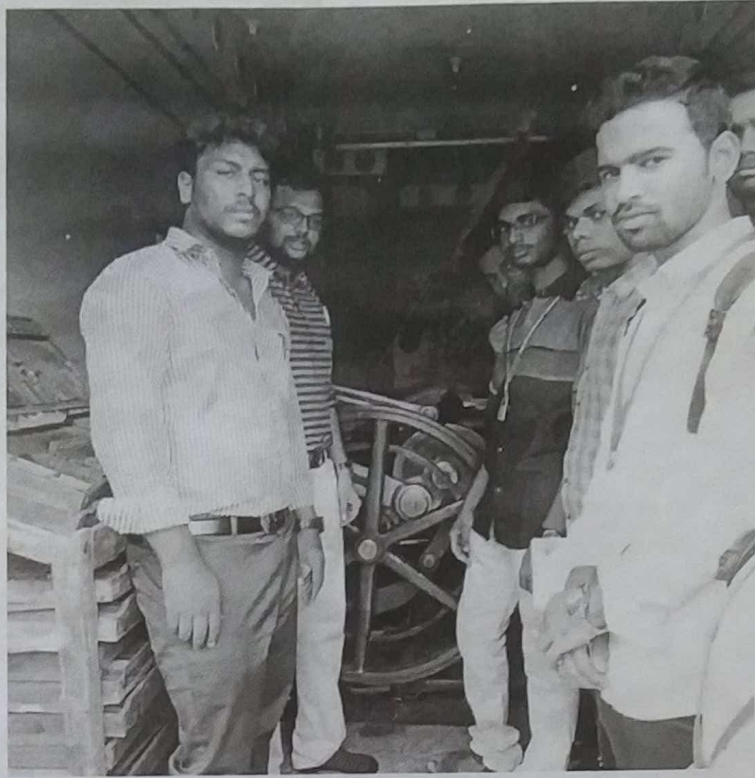

Inking methods

Machine operating techniques

The future of letter press

Students are very satisfied with the field visit. Students also thanked **Mr.D.Ram Kumar & Mr.A.Manimaran** faculties of **Digital Print Media** For organizing and guiding them for the day's program

INDUSTRIAL VISIT

DEPARTMENT OF DIGITAL PRINT MEDIA

VENUE : COIMBATORE

DATE : 27.07.2018

On 27th July 2018 we with our students of Digital Print Media get a precious opportunity to visit the Senthur Printers in Coimbatore

The department of digital print media organized a one day industrial visit. The visit was organized with the prior permission and guidance of honorable principal Rev. Fr. Dr.A. Siluvai muthu. It was supported by respected HOD Prof. D.Ram kumar along with department teaching staff members Mr.Sethupathi, of DPM department totally 45 students visited the company.

Then the supervisor of the Dinamani newspaper printing press Mr.Babu started to explain about the management details and printing workflow.

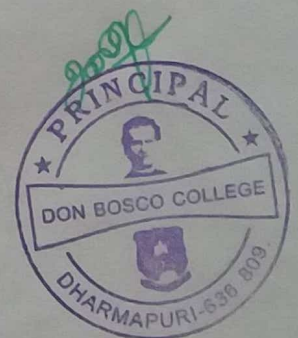

At 11.00 Am we visited Vignesh offset printing press. Which is also located at old Dhramapuri. After the visit we reached the college by 1.00 AM and all the students were very happy.

POINTS DISCUSSED IN SENTHUR PRINTING INDUSTRY:

The owner Mr.Prabakaran give a permission to visit the senthur printing industry and Mr.Dhanesh explanation about the function printing industry and company workflow

The points discussed are:

- Different units of printing machine such as feeding unit, inking unit, printing unit, folding unit and deliver Sections.
- The workflow of the newspaper printing such as news collecting , editing, image carrier preparation (PLATE) printing delivery.
- Students learn how the printing press are function.
- What are the sections in that industry also they know and what is the jobs function over there that details also they clearly observed.
- Students got some samples in that place

Following are the machineries available in senthur printers:

1. Semi automatic cutting machine.
2. Lamination machine.
3. The color sheet fed offset machine.
4. Multicolor offset printer
5. Offset printing
6. Screen printing

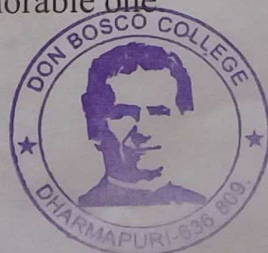

- The make ready process of miss-registration and also learned about their solutions.
- Lamination process for note book cover page.
- About dampening and inking solution.
- Trimming paper in to the final required size.
- Jobs done in the offset machine (invitation, note book, cover pager, brochures, pamphlets, etc...)

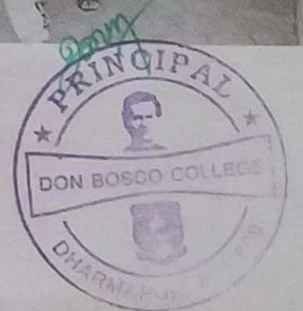

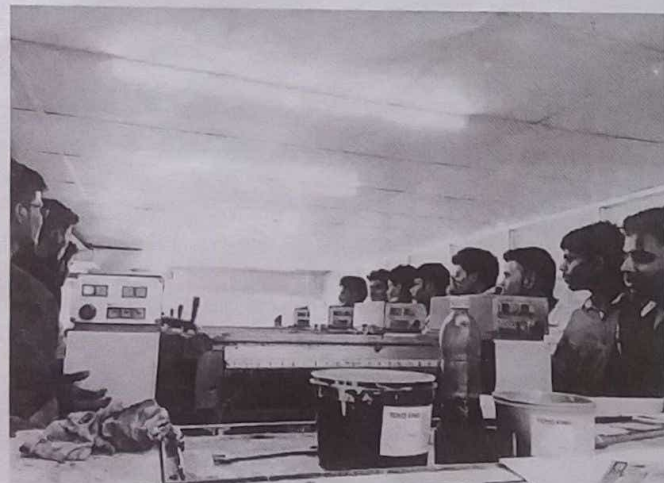

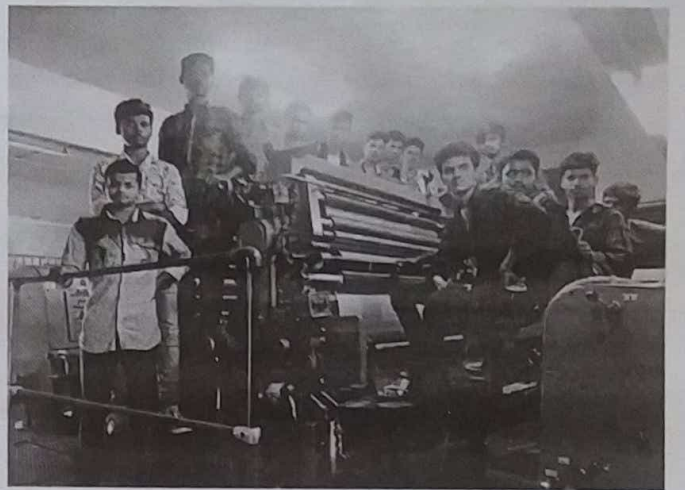

FEEDBACK FROM INDUSTRY:

- ✓ They were very happy about this and they treated our students in a good manner. This shows more care for the growth knowledge of the students.
- ✓ They are ready and eager to explain the printing process to our students.
- ✓ They also Conway their best wishes for the students future.

FEEDBACK FROM STUDENTS:

- ✓ First and foremost it is essential to thank our principal Rev. Fr.Dr.A.Siluvai muthu and head of the Department for giving us an opportunity to go for an industrial visit.
- ✓ Special thanks to Prof. Mr.Sethupathi for accompanying the students and guiding us during visit.
- ✓ Our Heartfelt gratitude also out to Mr.Prabakaran & Mr.babu for allowing us to visit his industry and guiding us through the various processes and machinery used.
- ✓ Finally heartfelt gratitude to all our classmates for making this trip a memorable one

PRINCIPAL

Survey of printing industry - 2018

The survey was conducted to identify the variation and process of the printing industries in the following two Districts Dharmapuri and Krishnagiri. And it is also to know the development strategies of industries in these two districts, especially the Krishnagiri District is upgrading lot of new technologies and developments because recently found and located in the state border of Karnataka. The industrial Survey and the exposure for the students it's a great chance for increasing their future job placement opportunities.

Back ground and purpose of the study

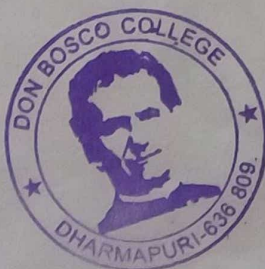

This study provides an overview of the printing industry including key metrics that has to characterize the size and impact of the industry on energy , environment and economy.

- ❖ Number of printing industries
- ❖ Number of various machineries , manual, semi automatic, automatic
- ❖ Types of work
- ❖ Industry work flow
- ❖ varies types of designing software's

Organized way

The survey was conducted by the DPM Students by the Assistance of Prof. M.Sedhupathi. It was purely aimed at enhancing the knowledge of the students about the subjects through practical sessions. In printing industry the types of machineries are used and its advanced developments emerging slowly in this world.

In printers design what paper to purchase and the key factors identified running ability and print quality, The leading paper characteristics considered the movement of purchase found to be tone line adhesion, accurate sheet dimensions and dimensional stability.

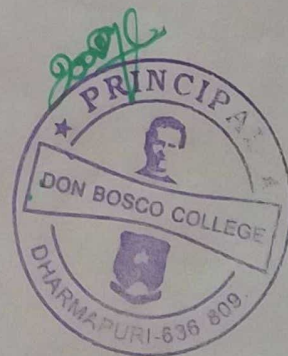

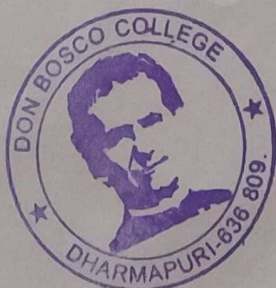

Findings:

By the above print provider survey further statistical analysis was made by staff members to evaluate the knowledge gained by the 2nd year students from their survey by collecting certain forms which was surveyed and signed by the owner's managers of printing industries in Dharmapuri and Krishnagiri. The intent was to identify the technical knowledge gained by them while seeing the process execution practically rather than setting and listing in class.

Advantages

- Knowing the different names of the printing machines and the advantage and disadvantage.
- Different press of workflow collected and gained more knowledge from the collected survey data subject as they are learning it practically.
- This survey makes the, students to become a Entrepreneur in their own native place. students get better idea about the subjects as they are learning it practically

PG AND RESEARCH DEPARTMENT OF ENGLISH

REPORT ON LIBRARY VISIT

The students of II M.A. English visited the British Council and American Library, Chennai on 27.07.2018 with the guidance of Mr. J. Jayaraj, Assistant Professor of English. The libraries are housed in different places with great new buildings, in a large and well appointed room. They are run by British Council and American Embassy.

First we visited the American Library. There we were taken around and shown good and updated books written by American authors. We were screened a movie on *The Wrath of the Grapes*, a fiction. It was really good and all of us kept abreast of searching for books for project writing.

We lingered over the nonfiction shelves. The books seemed oriented to middle class hobbies like antiques and foreign travel. Some of us got membership from the American Library and started borrowing books on the same day. The library is seen as a force for self improvement and the pursuit of knowledge.

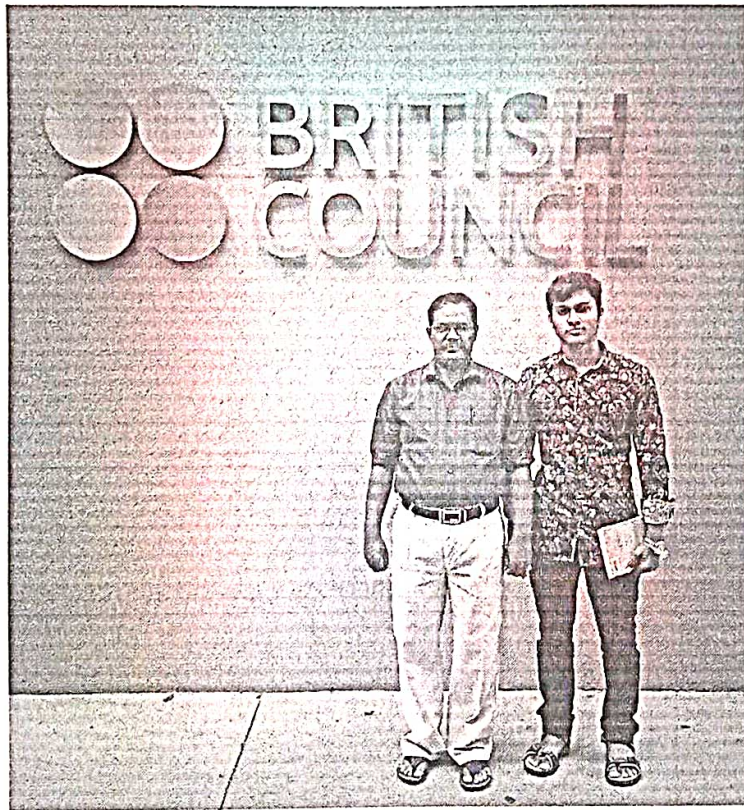

We started moving to the British Council around 11:30 a.m. There we were provided sound lecture on *How to get access through books?* It guided us further to find some books on the British authors. All the students paid attention to the instructors and made use of the time. Those who wished to read and improve their minds were provided them with new skills and paid access to books to do so. Students were accessed to computers, as so much good material was available on the net.

Thus the visit paved good ways to find so many books that contribute much knowledge to compile a good project.
